Changes to LiveWell Account

In compliance with phase two of the federal 21st Century Cures Act, on Oct. 5, 2022, the types of clinical information available in your account will be expanded. Additionally, some information will be released to MyChart sooner. As always, this information will be visible to you and to anyone with proxy access to your account.

Sign into your LiveWell account to review or make changes to proxy access to your account through the Share My Record feature.

For assistance on requesting or revoking proxy access, visit aah.org/helpcenter.
